Dear Call America, Inc. d/b/a Utility Telephone Customer:

Due to an internal corporate restructuring, the provision and management of your local and long distance telephone service is being transferred from Call America, Inc to its affiliate, Utility Telecom Group, LLC, which will conduct business as Utility Telephone. Subject to regulatory approval, we anticipate that the transfer will take place on or about January 17, 2016. This restructuring will not have any effect on your service. ***Operations and management will not change, which will ensure that you continue to receive the same high-quality service that you now receive. There will be no change to your service.***

Following the transfer you will continue to receive service under your existing contract at the same rates, terms, and conditions you currently enjoy for all services, as shown on your current bill. And, of course, there will be absolutely no charges to you due to the transfer. Any future changes to rates or the terms and conditions of your service will take place only in accordance with the terms of your contract, and you will be notified of them in advance in accordance with applicable regulatory requirements.

We truly look forward to the opportunity to continue to serve you, but want to remind you that you have the right to subscribe to local and long distance service from any carrier you desire. You may choose to switch to another carrier either before or after the transfer; however, early termination fees may apply if provided by your contract, but neither Utility Telecom Group, LLC nor Call America, Inc., will be responsible for any charges that your new carrier may assess.

The transfer will take place automatically on the scheduled transfer date (unless you have changed your service to another carrier prior to that time), even if you previously have requested that no changes be made to your preferred interexchange (long distance) or local carrier without your written consent (commonly referred to as a "PIC freeze"). If you wish to arrange for a new PIC freeze following the transfer, you must contact us after the transfer is completed in order to do so.

Before the transfer date, Call America, Inc. will continue to be responsible for all of your customer service and billing issues. After the transfer, all billing and service matters need to be directed to Utility Telecom Group, LLC. Regardless of the date, if you have any billing or customer service inquiries or complaints, you may contact us at our toll-free customer service number **877.965.7800** where we will be happy to assist you. As you can see, this is a change of corporate entity, but the people and ownership are not changing.

We value your continued business, and we will gladly respond to any questions you may have about our services or the transfer. If you do have any questions regarding your service or the transfer, please feel free to contact us at **877.965.7800**.

Cordially,

Jason Mills
